

5-Day Water Distribution Exam Review & Contact Hour Workshops Grades 1-2

Dates: **5-Day Review March 2 - 6, 2026 - or
choose individual days based on your needs.

Time: 8:00 a.m. to 4:00 p.m.

Location: 8801 Folsom Blvd., Suite 220, Sacramento, CA 95826

*OCT reserves the right to modify the schedule as necessary. Changes to the
schedule will be communicated to all participants in a timely manner.

Class Info: Class credit is issued based on a combination of:
- Chapter quizzes, Feedback, Participation, and Attendance.

**This 5-Day session is intended to be an exam
review, NOT a 36-hour course. If you need a full
course of instruction to meet certification/exam
requirements, please register for the 7-day course or
call the office at 916-640-2114 for more options.

TUITION FEE SCHEDULE:

Small water system,
(serving a population of 10,000 or less)
\$140.00/day or \$650.00 all 5 days

Medium/Large water system,
(serving a population of 10,001 or more)
\$275.00/day or \$1300.00 all 5 days

Tuition must be paid prior to the first day of class. A 10% cancellation fee will be charged.

Class Schedule

March 2-3, 2026: **2-Day Water Distribution Operations** - 14 Contact Hrs./1.4 CEUs

- This class is a condensed overview of potable water delivery throughout a typical community water distribution system from treated supply to residential and industrial user. Students will review the basic water distribution processes, equipment and methods to better prepare for common questions encountered on a water distribution operator certification examination.

March 4-5, 2026: **2-Day Water Distribution Math, Gr. 1-2** - 14 Contact Hrs./1.4 CEUs

- A scientific calculator is required for this math class.
- Operators will learn how to use the step-by-step method, utilize algebraic formulas, and define conversions to find the solutions to volume, pounds, dosage / demand /residual and PSI problems. These principles are reinforced with practical water math application problems.

March 6, 2026: **Disinfection of Public Water Supply** - 7 Contact Hrs./0.7 CEUs

- Students will study the subject of disinfection from a summary of Federal Drinking Water Regulations to Chlorine Safety. Student will learn to identify the properties of chlorine, dosage, demand and residual problems, breakpoint chlorination, disinfection by-products (THM's), alternative disinfectants together with liquid and gas chlorination practice problems.
